

## Baylor University

Dear Baylor,

We are pleased to provide you with a Federal CARES Act Grant in the amount of \$2000. This is a one-time federally funded emergency grant intended to provide financial assistance to help our neediest students with unexpected expenses associated with the disruption caused by the coronavirus.

This grant has been awarded to you in part because of your demonstrated financial need through the use of your 2019-2020 FAFSA application as well as your full-time Spring 2020 enrollment status. The CARES grant will be applied as a financial aid award; however, this specific grant will be paid directly to you and will not automatically be applied to any current account charges.

In an effort to help us get these funds to you quickly, we encourage you to setup direct deposit. Please click [here](#) to review direct deposit instructions. If you have questions regarding the timing and details associated with the refund process please contact the [Cashiers](#) Office.

You should receive an updated electronic award notification from our office shortly. We wish you the very best in your recovery efforts.

Sincerely,

A handwritten signature in black ink that reads 'Lisa Martin'.

Lisa Martin

Senior Director for Financial Aid
